EDUCATION

Qualification	Year	School/University	%/CGPA
B.Tech in Computer Science	2022-2026	VIT Bhopal University, Bhopal	8.89 CGPA
CBSE Class 12	2022	ASN. SR.SEC. SCHOOL, Delhi	94.4%
CBSE Class 10	2020	ASN. SR.SEC. SCHOOL, Delhi	94.4%

PROJECTS

CampusMart- AI Bazaar

Objective	Engineered a comprehensive digital marketplace enabling 200+ hostellers to securely trade, sell, and bid on second-hand goods with integrated AI-powered verification and real-time transaction processing.
Approach	Executed JWT-based authentication, deployed AI-powered image classification achieving 95% accuracy with dynamic bidding system with WebSocket.
Results	Presented a secure and accurate platform that solidified trust, streamlined product discovery, and enhanced user engagement.

Streamify- Video Calling and Chat Application

Objective	Deployed a full-stack web app for language learners featuring user authentication, comprehensive onboarding, real-time messaging, secure backend, and video calling using modern frameworks and APIs
Approach	Constructed an end-to-end web platform by designing intuitive front-end interfaces in React and TailwindCSS, building robust Node.js/Express/MongoDB backend APIs, integrating Stream Chat/Video API.
Results	Successfully deployed a seamless chat and video conferencing application with user engagement, secure authentication, and responsive design—successfully deployed for public access and future scalability.

Uber Clone

Objective	Built a full-stack ride-hailing application replicating Uber’s core booking and tracking features.
Approach	Leveraged React, Node.js, Express, and MongoDB with Socket.io for real-time ride updates, integrated Google Maps API for location and fare estimation, and enforced a secure authentication with live driver matching.
Results	Launched a responsive and high-performing ride-hailing platform with smooth UI/UX, real-time tracking, and optimized API handling.

TECHNICAL SKILLS

- Programming Languages:** Java, Python, C++, JavaScript
- Frameworks and Technologies:** MERN Stack (MongoDB, Express.js, React, Node.js), MySQL, JWT Authentication, Google Maps API, WebSockets, Next.js, TailwindCSS, React Query
- Developer Tools:** Docker, Figma, Git/GitHub, Cloudinary, Socket.io, GSAP, AWS

EXPERIENCE

- Technovate (IIT Indore-Runner up)** Developed AI-driven inventory management system improving sustainability metrics by 30%. and also added an analytics dashboard reducing manual reporting effort by 80%.
- Arthneeti (IIM Nagpur-Finalist)** - Proposed a green bonds system accelerating Electric Vehicle adoption by 25%. Streamlined financial processes reducing approval time by 50%

LEADERSHIP AND CONTRIBUTIONS

Content Team Lead – iOS Club & Fusion Club

- Spearheaded content strategy for 200+ club members, increasing engagement by 70% through strategic communication initiatives.
- Authored 25+ engaging technical guides, comprehensive event scripts, and documentation to support club activities.

EXTRACURRICULARS

- Languages:** English (Fluent), Hindi (Native), Basic French
- Soft skills:** Communication, Team Leadership, Problem-solving, Project Management, Adaptability
- Certifications:** Cloud Computing [NPTEL], Machine Learning A-Z [Udemy], Blockchain Developer[IBM], DevOps[IBM], Marketing Analytics[NPTEL]
